

PLATONI Kalliopi (Pola)

Medical School, National and Kapodistrian University of Athens

Medical Physics Unit, 2nd Department of Radiology, Attikon University Hospital

Platoni K. currently holds the position of Assistant Professor of Medical Physics in the Medical School of National and Kapodistrian University of Athens, Medical Physics Unit at “Attikon” University Hospital, Athens, Greece. She obtained her Bachelor’s degree in Physics from the University of Patras, Greece in 1994 and her Master’s degree in Radiological and Medical Physics from the University of Paul Sabatier, France in 1995. She also obtained a University diploma in Radiosurgery and Radiotherapy in stereotactic applications from the Université Pierre et Marie Curie, France (1996). She received her PhD in Medical Physics from the University of Paul Sabatier, France (1998) and the diploma of qualification in Radiological and Medical Physics (1999). She worked as medical physicist in quality assurance testing of Artemis -3D TPS for stereotactic irradiations at Dosigray Co, France (1996 – 1998), and as a medical physicist at the following departments: Radiation Oncology Dept. Hartmann Hospital, France (1999-2001), Radiation Oncology Dept. Tenon Hospital, France (2001-2002), Radiation Oncology Dept., Athens Medical Center, Greece (2002-2005) and 2nd Dept. of Radiology, Medical Physics Unit, Attikon University Hospital (2005-now). In 2018 she was elected Assistant Professor of Medical Physics at the Medical School of the National and Kapodistrian University of Athens. She has also teaching experience in educational courses and postgraduate programs. She has published more than 45 papers in peer-review international scientific journals, with more than 350 citations (Scopus database) with h-index 9. She has participated as presenter, invited lecturer or chairwoman to over 50 national and international congresses. She has carried out the Radiation Protection Safety Reports for Personnel and Patients for several Radiation Oncology Departments. Her main research work and interest focuses on Radiation Physics for Radiation Oncology. She has educational experience in postgraduate programs and training seminars. She participates in the training of Medical Physicists as well as in the elaboration of MSc and PhD thesis at the Unit of Medical Physics of the 2nd Dept. of Radiology of the National and Kapodistrian University of Athens. She holds the post of Secretary General of the Society of Hellenic Association of Medical Physics (HAMP). She is a member of the European Society of Radiation Oncology (ESTRO), the European (EFOMP) and the International Organization of Medical Physics (IOMP).
